A LETTER TO OUR COMMUNITY

With seven hospitals and more than three dozen clinics and care centers across Northeast and Central Wisconsin, ThedaCare offers families the most convenient and comprehensive medical care in the region. We are proud of our network of doctors, hospitals and health care professionals who come together to provide a complete, one-stop solution for all the community's medical needs.

For generations, our patients have turned to us for world-class care – and we are committed to providing enhanced access to that expertise.

Recently, a group of cardiologists decided to leave ThedaCare and chose to no longer be a part of our clinical network. We want to thank them for their service and we look forward to working with them in the future, especially when their patients need more advanced treatments in our facilities.

As President of ThedaCare, I want to assure the community that we will continue to have a world-class team of cardiologists, cardiothoracic surgeons and cardiovascular team members... and our program will grow. Here are the facts:

- **ThedaCare is expanding the cardiovascular program.** We are adding twelve new cardiologists to seamlessly provide patients with the care they need – no matter how serious – and we are continuing to invest in new technologies to do so.
- **ThedaCare is the only Wisconsin member of the Mayo Clinic Care Network.** The network gives our physicians and patients direct access to Mayo Clinic experts and clinical resources for second opinions without having to leave the area.
- **Our patients will continue to benefit from our nationally and regionally recognized services.** ThedaCare provides expert care close to home. At any of our locations, ThedaCare physicians access your information in one electronic health record – seamless, comprehensive care no matter where you are.

At ThedaCare, our patients are our top priority. At every clinic appointment, home visit, or hospital stay, and every phone call in between, we want to make you glad you chose ThedaCare. Thank you for placing your trust in us.

Sincerely,

Imran A. Andrabi, MD

President and CEO, ThedaCare
